

What is a Pilot? A Pilot is a sighted person who steers and captains the front of a two seater tandem bicycle. The Earle Baum Center, located on Occidental Road in Santa Rosa, runs a tandem club that actively rides once per month to different destinations. Participants from the Earle Baum Center are visually impaired-blind and enjoy outdoor adventure. Volunteer your time, learn to pilot a tandem, and make new friends!

Earle Baum Center

Transforming the Lives of People with Sight Loss

As a leader in the field of vision impairment services, the Earle Baum Center (EBC) works with a range of community partners, including veteran's groups, medical facilities, educational centers and vision centers across the state. Headquartered in Santa Rosa, the center serves approximately 450 clients annually. Since 1999, the EBC has served more than 11,000 clients, the majority who are 55 and older that have some level of sight impairment. For more information visit earlebaum.org
